

TITLE: Everest Full Synthetic CVT Transmission Fluid

SUITABLE FOR: TOYOTA CVT Fluid FE, NISSAN CVT Fluid NS-3, MITSUBISHI DQ CVT Fluid J4, DAIHATSU Amix CVTF FE, SUZUKI CVT Green 2, HONDA HCF-2

- Higher safety factor
- Longer transmission life
- Extended service interval
- Seal compatibility for better leakage prevention

Everest Full Synthetic CVT Transmission Fluid is specially formulated with a highly advanced additive package designed to meet the performance requirements of a wide variety of vehicles equipped with push-belt Continuously Variable Transmissions. It has enhanced critical frictional characteristics that deliver a higher safety factor, longer transmission life and extended service intervals. Everest Full Synthetic CVT Transmission Fluid meets the extended friction durability and superior anti-shudder requirements of OEMs such as Toyota/Aisin (Toyota TC), Nissan/JATCO (NS-2), Honda (HMMF) and Mitsubishi (CVTF-J1) that providing enhanced performance and driving comfort.

Everest Full Synthetic CVT Transmission Fluid is not recommended for use in chain type or power split type CVTs
